**MYANMAR DRILLING UPDATE:
DRILLING COMMENCEMENT OF
CHAUK DEVELOPMENT WELL CHK 1190**

Interra Resources Limited (the “**Company**” or “**Interra**”) wishes to inform shareholders that its jointly controlled entity, Goldpetrol Joint Operating Company Inc. (“**Goldpetrol**”), has commenced drilling development well CHK 1190 in the Chauk oil field in Myanmar.

Interra has a 60% interest in the Improved Petroleum Recovery Contract of the Chauk field and also owns 60% of Goldpetrol which is the operator of the field. CHK 1190 is being drilled using Goldpetrol’s ZJ 450 rig, thus drilling costs are expected to be relatively low. Interra’s share of the cost of drilling is funded from existing funds on hand.

CHK 1190 is drilled in the South fault block of the Chauk field as an offset to CHK 1188 which was completed as an oil producer in mid 2014. It is to be drilled to proposed depth of 3,000 feet with the objective of accelerating oil production from the reservoirs that produce in this fault block.

Interra estimates that the results of the drilling and completion should be available in approximately six weeks. The Company will announce the results as soon as they may be ascertained as well as updates reflecting critical or unexpected events during drilling.

By Order of the Board of Directors of
INTERRA RESOURCES LIMITED

Marcel Tjia
Chief Executive Officer

About Interra

Interra Resources Limited, a Singapore-incorporated company listed on SGX Mainboard, is engaged in the business of oil and gas exploration and production (E&P). Our E&P activities include oil and gas production, field development and exploration. We are positioning ourselves to become a leading regional independent producer of oil and gas.
